

County Accepting New Applications for Water Line Extension Program on July 1st

The Union County Board of Commissioners adopted a program that allows Union County Public Works to offer funding assistance for short water line extensions to serve a limited number of residential and non-residential properties in Union County. The program started July 1, 2012 and recurs each July 1st.

In general, the first 1,000 linear feet of pipeline needed to connect to the water system will be at the County's expense with the property owner responsible for any additional length of pipeline. Property owner is also responsible for tap and capacity fees associated with this extension.

UCPW will begin accepting applications in person, on a first come, first served basis beginning at 9:00 a.m. on July 1, 2014 in the Commissioners' Conference Room, Room 109, on the first floor of the Government Center, 500 North Main Street, Monroe, NC.
